### SKILLS

#### Front-End:

HTML | CSS | JavaScript | Bootstrap

#### Full Stack Development:

MERN (MongoDB | Express | React JS | Node JS)

#### Database:

SQL Server

#### Certification

SQL Server | Csharp | JAVA  
Programming

## WORK EXPERIENCE

### WEB DEVELOPER

#### *IRO - Coimbatore*

May 2023 - Present

- Developing multiple conference websites has been an opportunity for learning and exploring new things in web development.
- Using a MERN (MongoDB, Express.js, React.js, Node.js) stack can facilitate the development of a conference paper checking tool, allowing for easy machine-generated checks within the application.
- Website hosting often includes domain management capabilities for handling domains.

### PROJECTS

#### *Complaint Management System*

- MERN-based Complaint Management System: Enhancing student satisfaction through efficient complaint handling in educational institutions.

#### *Online Voting System*

- Database verifies entries for accuracy and assigns a User ID and Password for voting upon validation.
